SULTANATE OF OMAN

(Governorates & Wilayats)

Praise be to Allah and Peace be upon His Messenger, Mohammed

Education is key for personal development, and it provides a wealth of opportunities in life. The commitment and efforts we put into education are some of the most fundamental investments we can make towards securing the future wellbeing of Oman and its citizens.

Our education system has been the bedrock of our development. It has provided this generation and those before it with the skills and knowledge that have driven the country's growth and, with it, our prosperity. But to meet our high aspirations as expressed in Oman's Vision 2040 amidst an increasingly competitive global environment, we cannot stand still.

To compete with the best in the world, our education system must develop young Omanis who are knowledgeable, think critically and creatively, have leadership skills and are able to communicate effectively in English with the rest of the world. Just as importantly, our students must be instilled with values, ethics and a sense of citizenship that will empower them to make the right choices for themselves, their families and the country.

Given Oman's historical and geographical profile, mastering English as a second language is an absolute necessity for all our students. It is the language of international communication and is also the main language for studying other subjects all over the world. Therefore, the Ministry took the decision to adopt and customise an international series called 'Team Together' that is benchmarked to the Global Scale of English (GSE) and the Common European Framework of Reference for Languages (CEFR), both of which are internationally recognised standards for describing language ability.

This series is based on the most cutting-edge research on teaching and learning. It will embed and develop Future Skills such as critical and creative thinking, as well as encourage holistic, well-rounded personal growth. This series will prepare our children to meet the challenges of a pluralistic society that welcomes diversity, a knowledge-based job market that is constantly evolving, and economic globalisation.

Finally, I hope that you find this book useful and enjoyable, and use it in your everyday lives, as this will enable us all to contribute to the success of our beloved country – the Sultanate of Oman – as led by the inspiration and wisdom of His Majesty, Sultan Haitham Bin Tarik.

I would like to take this opportunity to wish you every success in life.

Dr. Madiha bint Ahmed Al-Shaibani
Minister of Education
Sultanate of Oman

Dolphin hurt by fishing net

Last Saturday Tasneem was out sailing in the sea with her dad. It was a beautiful day and they were having fun. Suddenly they heard a strange sound coming from some rocks next to the sea. Tasneem's dad sailed a little closer so they could see better. It was a dolphin and it was injured. It couldn't move because of a fishing net around its body. Tasneem's dad phoned the local animal protection organisation and they went to help. They looked after the dolphin until it was better and it could return to the sea again. It was a very happy ending! Fishing nets and rubbish such as plastic can be dangerous for sea animals. It's important to keep beaches and the sea clean! Remember to put your rubbish in the bin.

'Did you eat anything?' Mum asked.

At home, we've got a lot of machines (my dad loves buying them)! So what have we got?

Most of our machines are in the kitchen. We've got a cooker, a toaster, a fridge, a freezer, a kettle and a microwave, but we haven't got a coffee machine.

We've also got a vacuum cleaner and a washing machine.

The most useful things are the cooker and the fridge because we use them every day. The freezer is important, too, because it keeps our food fresh.

The microwave is the machine that I like the most because it cooks things very quickly! That's good when I'm very hungry!
